CONTENTS

PROGRAMME of the International Conference "RELIABILITY and STATISTICS in TRANSPORTATION and COMMUNICATION (RelStat'03)" 5

Transportation Security Response, Reliability, Safety and Performance Issues. *Ernst G. Frankel* 10

Session 1. Transport

Analysis of Resource Cycles in Marine Container Terminals. *Andrey Solomennikov, Vladimir Bardatchenko, Yuri Merkuryev, Fred Kamperman* 19

New Priority Ways in International Freight Transport and Estimation of Business Strategy of the Lithuanian Customs. *Aldona Jarasuniene* 28

Inventory Control Model for the Typical Railways Company. *Eugene Kopytov, Fedor Tissen, Leonid Greenglaz* 39

Methodology for Multimodal Network Analysis by Using Concept of Virtual Links and Nodes. *Aidas Vasilis Vasiliuskas* 46

Investigation of the Possibility to Establish a Logistics Centre in Vilnius Region and its Potential Benefits. *Leonas Povilas Lingaitis, Olga Fadina* 53

Products Distribution Optimization in the Logistics Network. *Ramūnas Palšaitis, Kęstutis Vislavičius* 60

Evaluation of the DME Siting Factors with Application to Palanga Airfield. *Algimantas Jakucionis, Romualdas Malinauskas, Jonas Stankunas* 64

Measurement and Monitoring Mean Selection Task in the Automated Centralized Transport Control Systems. *Alexander Berezhnoy* 74

Research of Reliability of the Supply System in the PSC "Vilniaus Autobusai". *Kęstutis Lukoševičius, Aurelijus Vestartas, Saulius Nagurnas* 81

Investigation of Dynamic Processes in the Hydraulic Braking System of Transport Vehicle with Anti-lock Brake System. *Marijonas Bogdevicius, Oleg Vladimirov* 85

Definition of a Trajectory of the Vehicle Movement, Taking into Account Interaction of its Wheels and Road Surface. *Olegas Prentkovskis, Marijonas Bogdevičius* 91

Exploitational Research of Reliability of the Front Suspension of „Karosa" Buses. *Kęstutis Lukoševičius, Egidijus Diržys, Nijolė Lukoševičienė* 103

The Fleet of Motor Vehicles in Lithuania and the Actions on its Renovation. *Alvydas Pikūnas, Valdas Valiūnas* 110

Session 2. Statistical Applications

Parameter Estimation and Hypotheses Testing for Nonhomogeneous Poisson Process: Part 2. Numerical Examples. *I. B. Frenkel, I. B. Gertsbakh and L. V. Khvatskin* 116

Combinatorial and Probabilistic Properties of Lomonosov's "Turnip". *I. Gertsbakh, Y. Shpungin* 130

Session 3. Computing Mathematics

Exact Analytical Solution and Some of its Approximations for Two-Dimensional Systems with Rectangular Fin. *Andris Buikis, Margarita Buike, Sharif Guseinov*.....141

Optimising Flight Route for Conforming to the Planned Time of Arrival. *Dalia Ziliene, Jonas Stankunas*.....150

Session 4. Management and Economics of Transport

Impact of Electronic Commerce on Forming Competitive Advantages. *Daiva Novikoviene*.....157

Distribution of Market Shares Among Competitors In Lithuanian Transport Sector. *Jonas Lazauskas*.....161

Social and Economic Principles of Developing an Integrated Public Transport Network in Vilnius. *Daiva Griskeviciene, Algirdas Griskevicius*.....168

Session 5. Reliability of Mechanical and Aviation Systems

The Design of Low Speed Wing Section for Safety and Performance. *Eduardas Lasauskas*.....174

Influence of Corrosion on the Required Number of an Airframe Inspection. *M. Shujauddin Wahab, Yu. M. Paramonov*.....180

Application of Statistical Methods for Quality Evaluation of Asphalt Concrete Mixture Production. *Henrikas Sivilevičius*.....191

The Effect of Variable Rigidity of Haulage Rope on the Vibration Rate and Reliability of "Trailed Vibration Roller – Haulage Rope" System. *Vilius Bartulis*.....201

Session 6. Efficiency of Electronics Systems and Devices

Analysis of Difference Schemes in Modeling of Gyrotron Equation. *O. Dumbrajs, H. Kalis and A.Reinfelds*.....206

High-Selective Digital Filters with Optimized Linearity of Phase Characteristic. *Takhir Mamirov*.....215

Poster Session

The Distribution of Conditional on Realised Volatility Financial Returns. *Max V. Moldovan, Andrew C. Worthington, Nicholas A. Nechval and Hellen Higgs*.....219

The Simulation-Free Simple Test for Normality: Some Comparisons of Size and Power. *Max V. Moldovan, Konstantin N. Nechval and Nicholas A. Nechval*.....226
